How is this hospital doing?

- 😊 1. Stanford Health Care in Stanford, CA, along with El Camino Hospital in Mountain View, CA, are the only two hospitals out of 26 within 25 miles that are better than the national infection benchmarks in both CLABSI and C.diff. Nationwide there are 299 such hospitals.

How is this hospital doing?

- 😊 **2.** Stanford Health Care in Stanford, CA is the only one of 26 hospitals within 25 miles which has a 4- or 5-star rating in each of care transition, communication about medicines, discharge information, doctor communication, nurse communication, overall patient rating, and recommendation of hospital (7 total). Nationwide there are 466 such hospitals.

Stanford Health Care has these rating standings *among those 26 hospitals* :

- care-transition rating = 4 stars (the highest, tied)
- cleanliness rating = 3 stars (5th-highest, tied)
- communication-about-medicines rating = 4 stars (the highest)
- discharge-information rating = 4 stars (the highest, tied)
- doctor-communication rating = 4 stars (the highest, tied)
- nurse-communication rating = 4 stars (the highest, tied)
- overall patient rating = 4 stars (the highest, tied)
- quietness rating = 1 star (the lowest, tied)
- patient recommendation rating = 4 stars (2nd-highest, tied)
- staff-responsiveness rating = 3 stars (2nd-highest, tied)

nearest others are Sutter Maternity & Surgery Center of Santa Cruz in Santa Cruz, CA , 60th Medical Group (Travis Afb) in Fairfield, CA, Stanislaus Surgical Hospital in Modesto, CA, and Kaiser Foundation Hospital-Santa Rosa in Santa Rosa, CA.

How is this hospital doing?

- 😊 **3.** Stanford Health Care in Stanford, CA is the **only** one of 26 hospitals within 25 miles which is better than the national death rates in **both** pneumonia and heart failure. Nationwide there are 96 such hospitals.

nearest others are UCSF Medical Center in San Francisco, CA, John Muir Medical Center - Walnut Creek Campus in Walnut Creek, CA, University of California Davis Medical Center in Sacramento, CA, and Oroville Hospital in Oroville, CA.

How is this hospital doing?

- 😊 4. Stanford Health Care in Stanford, CA is the only one of 109 hospitals within 100 miles which is better than the national rate of respiratory failure after surgery. Nationwide there are 46 such hospitals.

nearest others are Keck Hospital of USC in Los Angeles, CA, UC San Diego Health Hillcrest - Hillcrest Med Ctr in San Diego, CA, Dixie Regional Medical Center in St George, UT, and St Luke's Regional Medical Center in Boise, ID.

How is this hospital doing?

- 😊 5. Of the 61 hospitals within 50 miles, Stanford Health Care in Stanford, CA is one of just 3 that are better than the national patient-care averages in each of mortality, readmission, and patient experience.
- with Peninsula Medical Center in Burlingame, CA and Sequoia Hospital in Redwood City, CA.

How is this hospital doing?

- 😊 6. Stanford Health Care in Stanford, CA is the only one of 61 hospitals within 50 miles which is better than the national death rate among patients with serious treatable complications after surgery. Nationwide there are 50 such hospitals.

nearest others are Cedars-Sinai Medical Center in Los Angeles, CA, Sunrise Hospital and Medical Center in Las Vegas, NV, Ohsu Hospital and Clinics in Portland, OR, and St. Joseph's Hospital and Medical Center in Phoenix, AZ.

How is this hospital doing?

- 😊 7. Stanford Health Care in Stanford, CA is the only one of 26 hospitals within 25 miles which is better than the national rate of pressure sores. Nationwide there are 80 such hospitals.

nearest others are UCSF Medical Center in San Francisco, CA, John Muir Medical Center - Concord Campus in Concord, CA, University of California Davis Medical Center in Sacramento, CA, and Saint Agnes Medical Center in Fresno, CA.

How is this hospital doing?

😊 **8.** Stanford Health Care in Stanford, CA has the highest communication-about-medicines rating (★★★★●) of all the 26 hospitals within 25 miles. Those 4 stars compare to an average of 2.6 stars across the 26 hospitals.

Stanford Health Care has these related standings *among those 26 hospitals* :

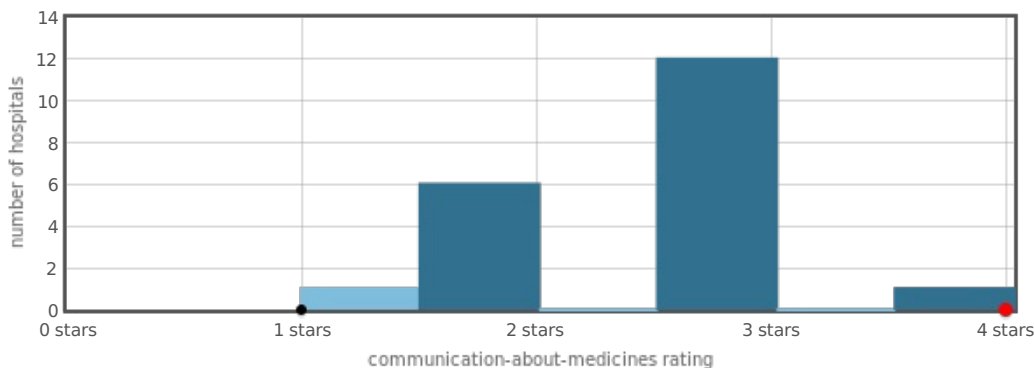

- communication-about-medicines rating = 4 stars (the highest)
- change in communication-about-medicines rating over two years = +1 star (the biggest, tied)
- change in communication-about-medicines rating over one year = +1 star (2nd-biggest, tied)

Note that *communication-about-medicines rating* correlates (0.55) with *quietness rating*. But on the latter, Stanford Health Care in Stanford, CA (with 1 star) is *lower (i.e., worse)* than the median (2 stars) of those 26 hospitals.

beat Peninsula Medical Center in Burlingame, CA (3 stars), Santa Clara Valley Medical Center in San Jose, CA (3 stars), Kaiser Foundation Hospital - South San Francisco in South San Francisco, CA (3 stars), and Kaiser Foundation Hospital-Santa Clara in Santa Clara, CA (3 stars), and others, ending with Alameda Hospital in Alameda, CA (1 star).

6 out of the other 25 hospitals were ruled out due to missing, unknown, or not-applicable values for communication-about-medicines rating, e.g., Lucile Salter Packard Children's Hsp at Stanford in Palo Alto, CA.

How is this hospital doing?

- 😊 **12.** Of the 26 hospitals within 25 miles, Stanford Health Care in Stanford, CA is one of just 3 that are better than the national benchmark for central line-associated bloodstream infections (CLABSI).

with El Camino Hospital in Mountain View, CA and Lucile Salter Packard Children's Hsp at Stanford in Palo Alto, CA.

Incidentally, none of the 3 is worse than the national benchmark for catheter-associated urinary tract infections (CAUTI). None of the 3 is better than the national benchmark for catheter-associated urinary tract infections (CAUTI).

How is this hospital doing?

- 😊 **13.** Stanford Health Care in Stanford, CA is the only one of 26 hospitals within 25 miles which is better than the national death rate for pneumonia patients. Nationwide there are 211 such hospitals.

nearest others are UCSF Medical Center in San Francisco, CA, John Muir Medical Center - Walnut Creek Campus in Walnut Creek, CA, University of California Davis Medical Center in Sacramento, CA, and Oroville Hospital in Oroville, CA.

How is this hospital doing?

- 😊 **14.** Of the 26 hospitals within 25 miles, Stanford Health Care in Stanford, CA is one of just 4 that are better than the national death rate for heart failure patients.

with El Camino Hospital in Mountain View, CA, Seton Medical Center in Daly City, CA, and Regional Medical Center of San Jose in San Jose, CA.

Incidentally, all 4 are worse than the national average in timeliness of care. All 4 provide emergency services. None of the 4 is worse than the national benchmark for catheter-associated urinary tract infections (CAUTI). None of the 4 is better than the national benchmark for catheter-associated urinary tract infections (CAUTI).

How is this hospital doing?

- 😊 **15.** Stanford Health Care in Stanford, CA, along with Kaiser Foundation Hospital-Santa Clara in Santa Clara, CA, are the only two hospitals out of 26 within 25 miles that are better than the national rate of hospital return days for heart attack patients.

Incidentally, both are voluntary non-profit (private) and are better than the national average in patient experience. Both are acute care. Both are better than the national benchmark for Clostridium difficile (C.diff.) intestinal infections.

How is this hospital doing?

😊 **16.** Stanford Health Care in Stanford, CA has the highest overall hospital rating (★★★★★) of the 21 hospitals in the Far West that are better than the national death rates in both pneumonia and heart failure. Those 5 stars compare to an average of 3.7 stars across the 21 hospitals.

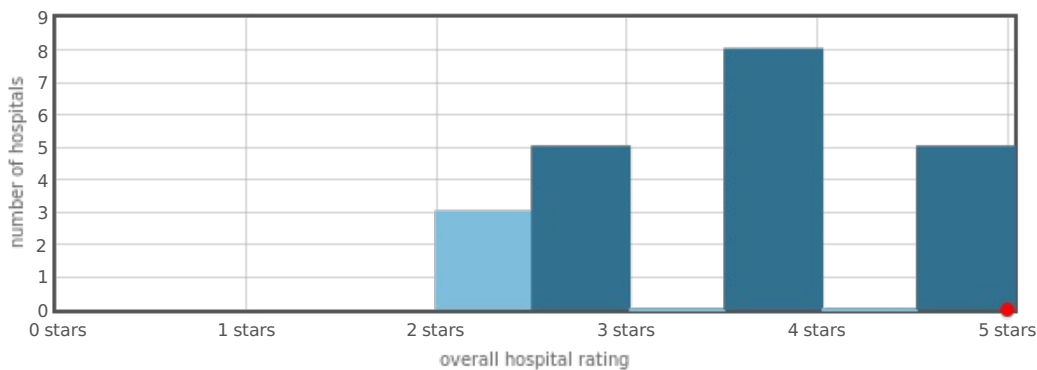

Stanford Health Care has these related standings *among those 21 hospitals* :

- overall hospital rating = 5 stars (the highest, tied)
- change in overall hospital rating over two years = +1 star (2nd-biggest, tied)
- change in overall hospital rating over one year = +1 star (3rd-biggest, tied)

tied with Santa Monica - UCLA Med Ctr & Orthopaedic Hospital in Santa Monica, CA, John Muir Medical Center - Walnut Creek Campus in Walnut Creek, CA, Glendale Adventist Medical Center in Glendale, CA, and Cedars-Sinai Medical Center in Los Angeles, CA, all with 5 stars.

beat Centinela Hospital Medical Center in Inglewood, CA (4 stars), Mission Community Hospital in Panorama City, CA (4 stars), UCSF Medical Center in San Francisco, CA (4 stars), and Providence Saint John's Health Center in Santa Monica, CA (4 stars), and 12 others, ending with Oroville Hospital in Oroville, CA (2 stars).
